March 17, 2025

To Whom it may Concern:

Linn County, through its Road and Bridge Department, will provide dust abatement for county residents who make application for such measures. Linn County will offer Magnesium Chloride this year at a rate of \$2.14 per foot, with a 200-foot minimum order (\$428.00 minimum **charge plus \$25 application fee=\$453.00**). **All applications must include payment.**

Please be advised that this product does not control dust 100 percent. This dust abatement material is affected by weather and traffic, which realistically limits its effectiveness to the summer months. Linn County cannot guarantee the life expectancy of the dust control applied to any given area. Variables affecting the effectiveness and duration of treatment include traffic, thickness of gravel, drainage, etc.

The program will begin approximately May 2025 (dependent on weather) and will continue through completion. Applications must be received in this office by April 18, 2025, **with full payment included to be eligible.** We will make every effort to have your road in the best shape possible prior to applying the magnesium chloride treatment. However, we must inform you that if the road gets too rough, we will maintain it as necessary after treatment.

To request magnesium chloride, please complete the enclosed application and return it to the address above by April 18, 2025. Please mark the area you wish to have treated with flags so that the road may be prepared before application. (Flags are available for pick-up at the Courthouse Annex, 306 Main Street, Mound City, 66056, if needed). If you have any questions, please contact us at (913) 795-2279.

Thank you,

Linn County Road and Bridge

I request that the Linn County Road and Bridge Department apply Magnesium Chloride to the gravel roadway in front of my residence. I understand, as do all members of my household, there is **NO GUARANTEE** as to the effectiveness or the duration of the product used. I agree to hold Linn County harmless for failure of the product to control dust. It is further understood that Linn County must maintain all roads for the traveling public and the Road and Bridge Department has the right to perform any maintenance on any roadway in the unincorporated area of Linn County. I will mark the area that I wish to have treated with flags. (If needed, flags can be picked up at the Courthouse Annex, 306 Main St, Mound City, KS.)

Name: _____

Address: _____
